General specifications of the MARBELLA enclosure

Modular enclosure made of 1.5 mm thick perforated sheet metal panels joined together using a displacement fixation system to Ø 40 x 1.5 mm crossbeams and Ø 80 x 2.0 mm posts.

Posts with a Ø 130 x 8 mm anchor plate.

Other perforated designs or laser cutting are also an option.

Simultaneous installation which is carried out by placing the post followed by the panel and the next post.

Swing, sliding and self-supporting gates with the same design.

Surface finishing

IT PINT

Steel + galvanising + plasticising

IT PINT PLUS

Steel + Sendzmir galvanising + primer + plasticising

IT PINT ULTRA

Steel + hot-dip galvanising + primer + plasticising

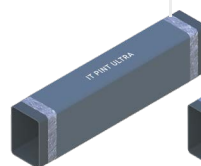

Standard RAL

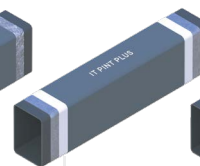

Example of special textured RAL colors

Hot-dip galvanising

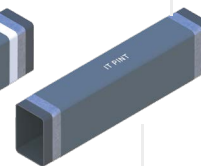

Sendzmir galvanising

Steel

Primer

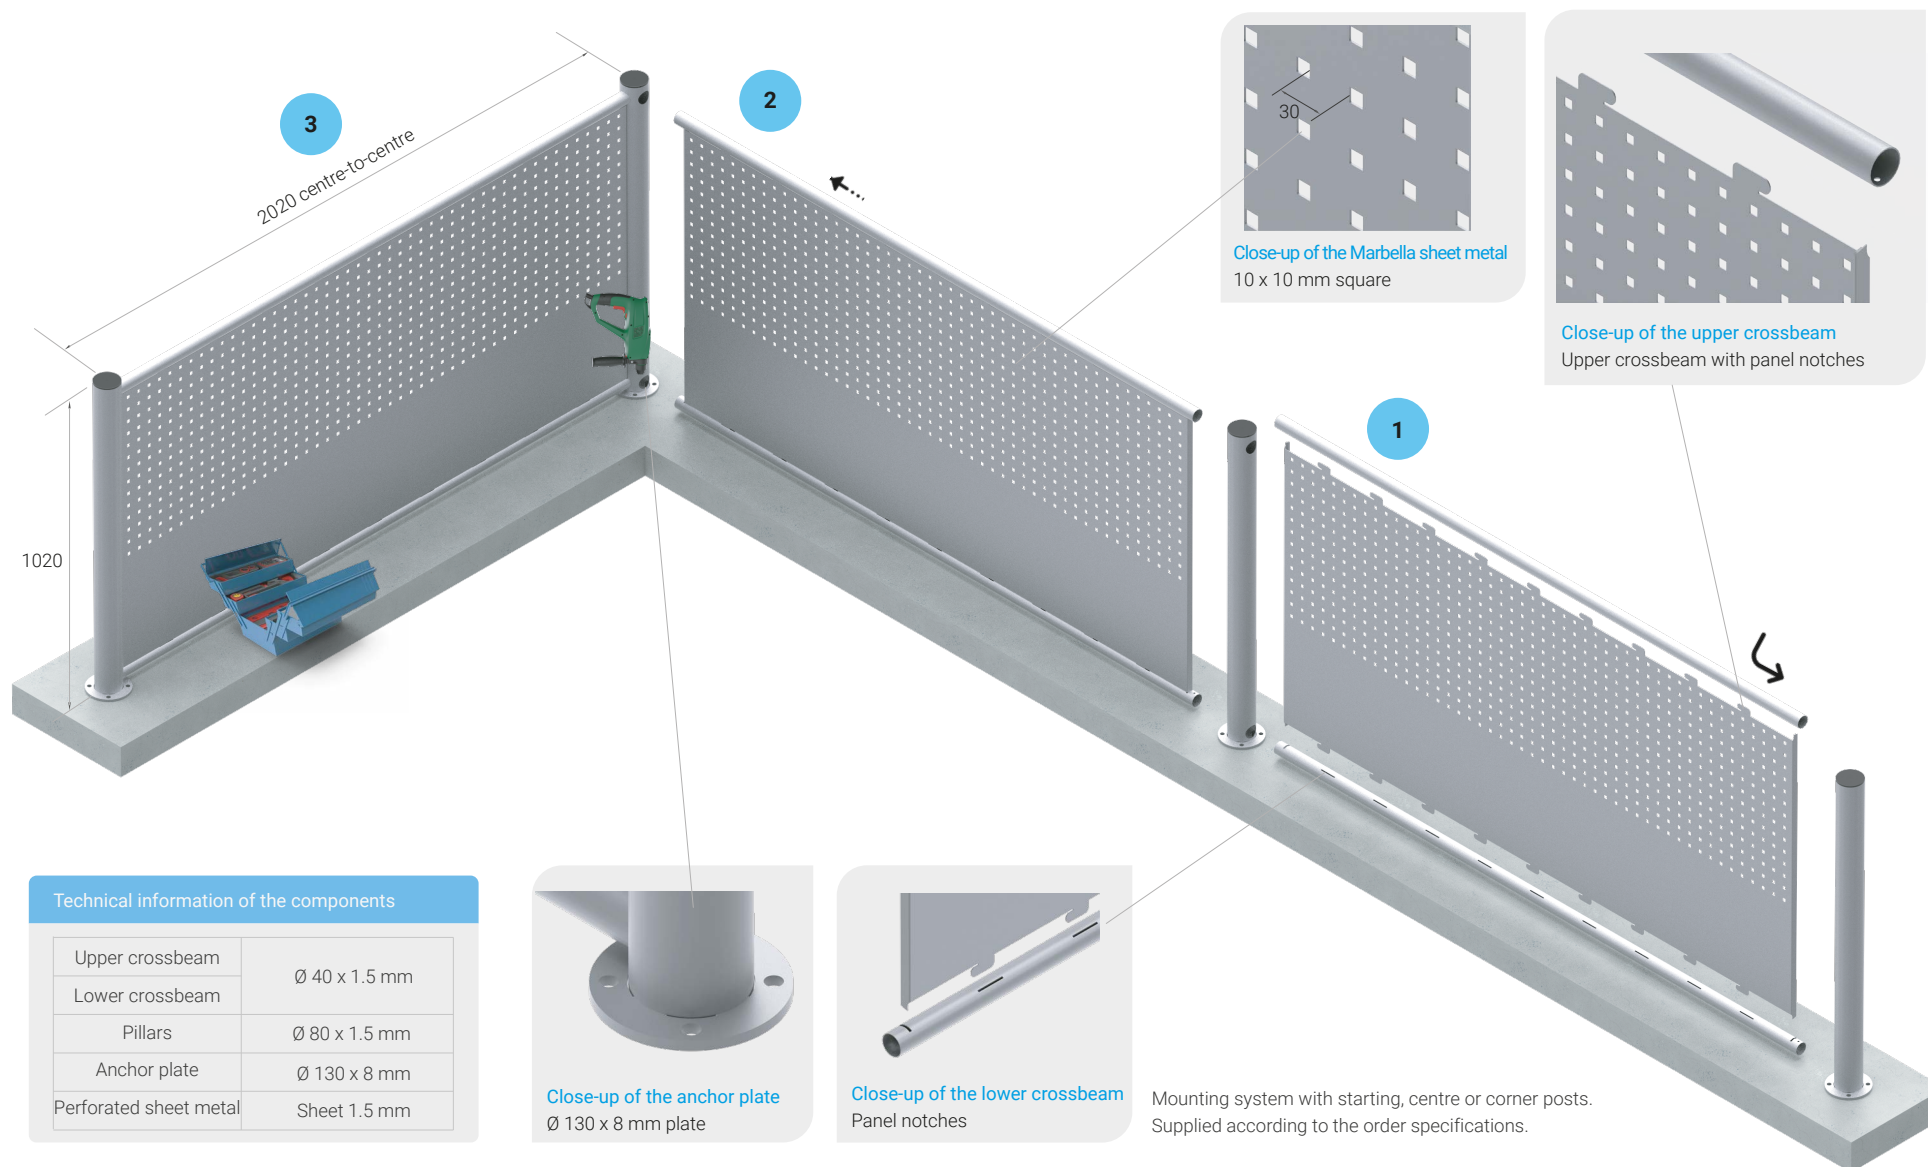

Plasticising

All finishes have a nanotechnological passivation layer between the steel and the primer or plasticiser.

Any colour from the RAL chart.
