### General specifications of the NATURiT enclosure

The NATURiT enclosure is made of galvanised steel tubes. The posts are made of 100 x 100 x 3 mm tube and the horizontal slats of 100 x 20 x 1.5 mm tube. We supply starting, centre or corner posts depending on the needs of the site. Quick and easy to install which is carried out by placing the post followed by the slats and the next post. It can be manufactured with different number of horizontal slats and with base plate for screwing.

### Surface finishing

#### IT PINT

Steel + galvanising + plasticising

#### IT PINT PLUS

Steel + Sendzmir galvanising + primer + plasticising

#### IT PINT ULTRA

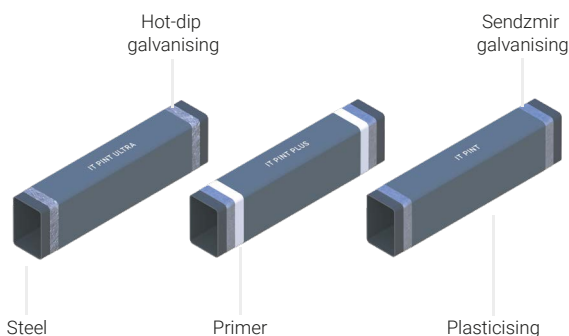

Steel + hot-dip galvanising + primer + plasticising

Standard RAL

Example of special textured RAL colors

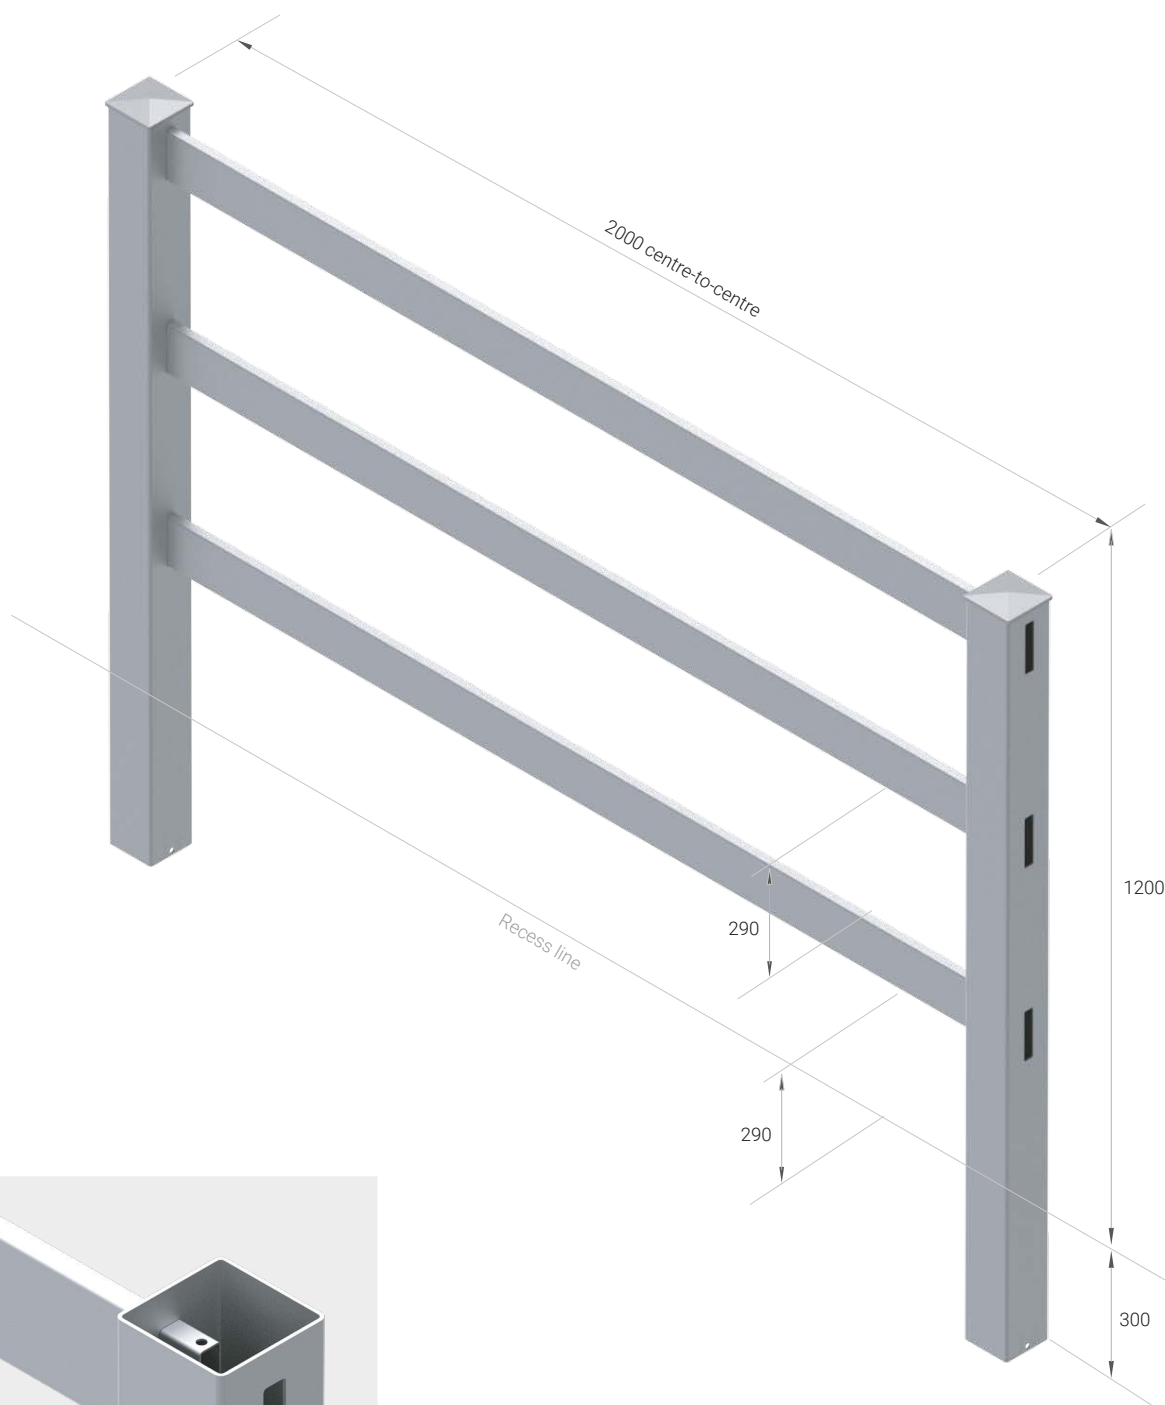

All finishes have a nanotechnological passivation layer between the steel and the primer or plasticiser.

Any colour from the RAL chart.
